

Vancouver Infrastructure Service Request Neighborhood Analysis | 2023 – 2025

This map displays the total volume of infrastructure-related 311 service requests aggregated by neighborhood for the City of Vancouver between 2023 and 2025.

Each neighborhood is shaded according to its total request count across four departments: Streets Operations, Urban Forestry, Traffic & Electrical Operations, and Waterworks.

Darker shading indicates higher total request volumes and identifies neighborhoods with the greatest cumulative infrastructure maintenance demand over the three-year period.

Total records analyzed: 103,025
Neighborhoods mapped: 22
